Bioenergy Promotion

Joint Conference on Sustainable Business Models and NREAP Implementation in the Bioenergy Sector

22 NOVEMBER 2011, POLEKO TRADE FAIR POZNAŃ, POLAND

INNOVATIVE APPROACHES FOR SUSTAINABILITY IN BUSINESS IN THE BIOENERGY SECTOR *International Panel*

The joint panel of the two projects: Bioenergy Promotion and SPIN, provides snapshots of innovative approach to business in the bioenergy sector, with particular focus on biogas produced from waste. Among the speakers and the invited guests are businesses (operators and technology providers), representatives of municipalities, as well as European, national and local policy makers. Discussed examples of business chains, and public-private cooperation link demand and supply in a sustainable way and create added values at local and regional levels.
